Traffic Violator School Program: Fees

In accordance with Government Code section 11346.8(c), the Department of Motor Vehicles (department) provides this notice for the purpose of inviting comments regarding modification of the proposed regulations relating to the fees for Traffic Violator School Programs. The regulatory language as originally proposed was published in the California Regulatory Notice Register on March 4, 2011, and provided to interested persons for comment.

The department received several comments during the 45-day comment period. All comments received were considered and responded to in the Final Statement of Reasons; however, the department determined it was not necessary to amend the proposed language as a result of the comments received. On May 27, 2011, the department submitted the final rulemaking action to the Office of Administrative Law (OAL) for review and approval. After conducting its review, the OAL concluded that the file was essentially incomplete as the fees currently identified in Article 4.7 were not indicated with strikeouts in the proposed language.

The department is conducting an additional comment period of 15-days for the public to review and submit comments related to the strikeout of old fees. The department will only respond to comments on these most recent amendments which are indicated by methods described below. An amended Statement of Reasons and costing information documenting the proposed fee structure are being provided during the 15-day notice period to ensure the affected public and interested parties are aware of the department's rationale behind the new amendments. The department is also providing the Final Statement of Reasons submitted to the OAL on May 27, 2011, as well as the Amended Final Statement of Reasons that provides supplemental responses to comments received during the initial 45-day comment period.

Attached is the full text of the proposed regulation. The text includes the originally proposed language as well as the proposed changes to the language. The proposed
